¹ For programmes with small numbers of applications, approval rates may show high levels of fluctuation between the five decision-making meetings held each year.

² Due to the decision-making procedures for matching funds with the Austrian provincial governments and in international programmes the overall values for the year may deviate from the cumulative values for the individual board meetings. Figure does not include withdrawal of submissions as well as additional individual applications decided upon at the board meeting.

³ Approval rate calculated on the basis of unrounded figures.

⁴ Preliminary decisions made by the FWF Board subject to approval of funding by international partner organisations. Approvals are not communicated to applicants until those organisations have issued their approval.

⁵ The figure does not include withdrawn applications (1), altogether 70 applications were submitted.
