2016 Call for Joint Research Projects (JP)

Deadline: 31 May 2016
Project duration: up to 3 years

1. Introduction

The Austrian Science Fund (FWF) and the National Natural Science Foundation of China (NSFC) jointly offer the possibility to apply for bilateral Chinese-Austrian Joint Research Projects. Joint Research Projects should combine the complementary expertise of the project partners, the project parts should be closely integrated and there should be relevant scientific input from both sides. The two parts of the research project are financed separately by the respective national funding agency. NSFC finances the costs for the Chinese part while FWF finances the costs for the Austrian part. The respective costs thus have to be applied for at NSFC or FWF.

2. Eligible topics:

In 2016 proposals for Joint Projects in the following thematic areas can be submitted:

- **Biodiversity, evolutionary biology, behavioural biology**
- **Information and Communication Technology**
- **Mathematics**

3. Cost calculations
