Supplementary grants						1.56	
Total grants						68.54	

¹ For programmes with small numbers of applications, approval rates may show high levels of fluctuation between the five decision-making meetings held each year. Due to the decision-making procedures for matching funds with the Austrian provincial governments and in international programmes the overall values for the year may deviate from the cumulative values for the individual board meetings. The figure includes decisions regarding applications, either rejections or approvals. Except for SFB new applications, the figure does not include a) withdrawal of submissions, and b) submissions cancelled by the FWF Board.

² Approval rate calculated on the basis of unrounded figures.

³ Preliminary decisions made by the FWF Board subject to approval of funding by international partner organisations. Approvals are not communicated to applicants until those organisations have issued their approval.

⁴ Figures refer to draft proposals and approved full applications.

⁵ Approved full applications as well as extensions refer to overall projects, each of which consists of multiple sub-projects.
